An Investment in Quality

To the Residents of Perth,

My name is Bill Marcolina, and I'm the Managing Director of Atrium Homes.

Over 50 years ago, when my father Willem Marcolina Senior first began designing and building homes, he dedicated all his efforts and resources to achieving excellence.

Those original principles of uncompromising quality and commitment have helped us to where we are today, building beautiful award-winning homes. Since being first recognised as an industry leader in 1995, we have consistently been acknowledged as builders of excellence; most recently by winning the 2010 Builders Registration Board award for Excellence in Building Practice.

Every home we build carries with it an exceptional level of quality and distinction, backed by my family's dedication and hands-on involvement in the entire building process.

When it comes to building your new home, I can assure you the same level of unrivalled craftsmanship and superior service. We have a wide range of distinctive Atrium designs or, if you have ideas of your own, the Atrium Homes Design Service offers a personalised service that specialises in individual, one-off designs to suit your needs.

You should be as proud of your new home as we are of every home we build. It's something we all strive for at Atrium Homes. So when you're ready for a home of genuine luxury and distinction, talk to us. I personally guarantee you my total commitment.

A handwritten signature in black ink, appearing to read "Bill Marcolina".
